PROJECTS

- **AU Social App**
  URL: ausocialapp.vercel.app
  A university social media app connecting alumni and current students, fostering community engagement through networking, collaboration, and shared experiences.

- **Chat App**
  URL: chat-app-7q98.onrender.com
  Developed a real-time chat application providing users with a seamless and engaging messaging experience.

- **Student Cards**
  URL: studentcards.vercel.app
  Built a dynamic student card generation system using ReactJS, allowing faculty to filter students and generate personalized placement cards with a downloadable PDF option.

- **Learn-Concept**
  URL: learn-concept.vercel.app
  Designed a React.js-based learning platform enabling students to navigate curated subjects and access structured content and questions for each topic.

- **Milk Bottle Tracker**
  URL: milk-bottle-tracker.vercel.app/login
  Developed a MERN stack application to streamline milk consumption tracking. Features include daily logging, record editing, and downloadable PDF summaries. Future plans include graphical insights and detailed reports.

- **Real Estate Website**
  URL: resw.000webhostapp.com
  Created a PHP and MySQL-based real estate platform for property buying and selling, including features like property postings, filtering, and inquiry management.

- **Brochure App**
  URL: aubrochure.vercel.app
  Led the development of a brochure creation tool using ReactJS, enabling academic institutions to customize and generate professional brochures efficiently.

.
